**Re: Notification of Proposed Change to Ward Configuration – Gosford Hospital**

Dear Mr Hayes,

I write in relation to the correspondence provided on 1 December 2025 in which the Central Coast Local Health District (CCLHD) informed and invited the Health Services Union (HSU) to participate in consultation regarding a proposed change to the Ward Configuration at Gosford Hospital.

An extensive period of consultation has been undertaken. A Union Specific Consultative Committee meeting was held on 9 December 2025. In the absence of any further queries, we advise that the consultation period is closed.

Following further consideration of all the feedback we have determined to proceed with the implementation of the ward configuration as proposed. We plan to have this completed in time for this years' winter flu season.

We would like to thank the HSU for collaborating with us on this initiative. Additionally, we welcome any further feedback, questions and concerns throughout implementation to support a smooth and effective transition.

If you require additional information, I can be contacted by telephone at 0455 727 561 or via email: [jonathan.morris@health.nsw.gov.au](mailto:jonathan.morris@health.nsw.gov.au).

Yours sincerely,

Jonathan Morris  
**Associate Director – HR Services**  
Central Coast Local Health District
